CI Investments offers Canadian investors true tax efficiency with T-Class

TORONTO (October 15, 2007) – CI Investments Inc. (“CI”) today announced the launch of T-Class, a solution that allows investors to draw a tax-efficient monthly cash flow from their non-registered investments while maintaining the potential for growth.

T-Class makes monthly payments in the form of return of capital, which is not taxable.

“After-tax income is the critical issue for investors since many traditional interest-paying investments offer both low yields and high tax rates,” said Peter W. Anderson, CI’s Chief Executive Officer. “As one of the most tax-efficient investments available, T-Class is an important option for retirees and other Canadians planning for their retirement.”

CI’s T-Class is available on 25 funds within CI Corporate Class, a combination that offers true tax efficiency. The Corporate Class structure minimizes annual dividends and allows investors to switch between funds without triggering taxable capital gains – allowing for exceptional flexibility in constructing a tax-efficient non-registered portfolio.

“This structure means that investors can enjoy the tax advantages and the broad selection of top mutual funds within CI Corporate Class while saving for retirement and then, at retirement, create an income stream by switching tax-free to T-Class,” Mr. Anderson said.

CI is offering one of the industry’s broadest selections of series T funds, including income, equity, balanced and portfolio funds. The T-Class option is available on 25 Corporate Class funds, as well as four funds from CI’s popular Portfolio Series, which are mutual fund trusts.

Investors have their choice of annual payouts of 5% or 8%, or they can create a customized payout through a combination of T-Class and non-T-Class shares. Since the funds chosen for T-Class have a track record of performance that would have sustained a payout of 5% or 8% without eroding investors’ capital, a T-Class portfolio has the potential for continued growth while also providing a monthly cash flow. Additional information is available at www.ci.com.

Grâce à la Catégorie T, Placements CI offre aux investisseurs canadiens une réelle efficacité fiscale

TORONTO (15 octobre 2007) – CI Investments Inc. (« CI ») a annoncé aujourd'hui le lancement de la Catégorie T, une solution qui permet aux investisseurs de recevoir un revenu mensuel fiscalement avantageux à partir de leurs placements non enregistrés, afin qu'ils puissent bénéficier d'un potentiel de croissance continue.

La Catégorie T verse des distributions sous forme de remboursements de capital non imposables.

« La possibilité de bénéficier d'un revenu net d'impôt est devenu un sujet de grande importance pour les investisseurs, étant donné qu'un grand nombre de placements à revenu traditionnels n'offrent que de faibles rendements et des taux d'intérêt élevés », a déclaré Peter W. Anderson, chef de la direction de CI. « Étant l'une des plus rentables solutions de placement sur le plan fiscal, la Catégorie T représente une importante option non seulement pour les retraités mais également pour tous les Canadiens qui planifient leur retraite ».

La Catégorie T de CI est offerte par l'entremise de 25 fonds disponibles sous le parapluie de la Catégorie de société CI, une combinaison qui représente une réelle efficacité fiscale. La Catégorie de société se fonde sur une structure qui minimise les distributions annuelles de dividendes et qui permet aux investisseurs d'effectuer des transferts interfonds sans produire de gains en capital imposables.

« Cette structure permet aux investisseurs qui épargnent pour leur retraite de bénéficier des avantages fiscaux qu'offrent la vaste gamme de fonds communs de placement de la Catégorie de société CI. Suite à la prise de leur retraite, les investisseurs ont la possibilité de s'assurer un flux de revenus grâce aux transferts non imposables vers la Catégorie T », a déclaré M. Anderson.

CI offre maintenant l'une des plus vastes sélections de fonds de la série T, y compris des portefeuilles et des fonds de revenu, d'actions et équilibrés. La Catégorie T est disponible pour 25 fonds de la Catégorie de société, ainsi que quatre fonds de la Série Portefeuilles CI — une solution de placement populaire qui se compose de fiducies de fonds communs.

Les investisseurs peuvent opter pour des distributions annuelles de 5 % ou de 8 %, ou ils peuvent établir un programme de prestations personnalisé grâce à la combinaison de placements qu'ils possèdent dans leurs portefeuilles composés de parts de la Catégorie T et d'autres solutions de placement. Étant donné que les rendements antérieurs des fonds de la Catégorie T auraient permis des distributions de 5 % ou 8 % sans éroder le capital des clients, un portefeuille de fonds de la Catégorie T offre le potentiel d'une croissance continue, tout en procurant un flux mensuel de revenus. Des renseignements supplémentaires peuvent également être obtenus au www.ci.com.

United Financial's new Corporate Class enhances tax efficiency of portfolio programs

TORONTO (October 22, 2007) – United Financial Corporation today launched its Corporate Class share versions of the United Pools, giving advisors and their clients enhanced tax efficiency for investment portfolios.

Corporate Class is being added to United Financial's Optima Strategy and Private Client Managed Portfolios programs, which offer customized investment management solutions to affluent clients.

"This new option empowers our advisors to bring more sophisticated solutions to clients, to reduce taxes and costs and ultimately benefit from the power of enhanced compounding afforded by this structure for many years into the future," said Joseph Canavan, Chairman and Chief Executive Officer of United Financial.

Corporate Class shares are structured as part of a *corporation* – rather than a traditional mutual fund *trust*. This structure provides investors with a number of tax advantages, including the ability to rebalance their non-registered portfolios without triggering taxable capital gains, allowing for additional compounded growth by deferring tax.

"The Optima Strategy and Private Client Managed Portfolios programs have always differentiated themselves in the market through their disciplined investment process and account consolidation at the family level," Mr. Canavan said. "By enhancing their tax effectiveness, we are making each a truly comprehensive solution that fits well with the needs of Canadian investors."

United Financial Corporation is a Canadian investment management and wealth planning firm with approximately \$10 billion in assets under management. Les nouveaux Fonds de Catégorie de société de Corporation Financière Unie accroissent l'efficacité fiscale de ses portefeuilles

TORONTO (le 22 octobre 2007) – Corporation Financière Unie a procédé aujourd'hui au lancement des versions Catégorie de société des Fonds Unie afin d'offrir aux conseillers financiers et à leurs clients une efficacité fiscale accrue dans leurs portefeuilles.

La Catégorie de société s'ajoute aux Fonds Optima Stratégie et aux Portefeuilles de gestion privée de Financière Unie, qui constituent des solutions personnalisées de gestion de placements pour les clients financièrement aisés.

« Avec cette nouvelle option, nos conseillers peuvent proposer des solutions plus élaborées à leurs clients, réduire leur imposition et leurs coûts et en bout de ligne, bénéficier de la puissance d'une capitalisation composée plus efficace dans le cadre de cette structure et pour de nombreuses années à venir », a déclaré Joseph Canavan, président du c.a. et chef de la direction de Financière Unie.

Les actions de Catégorie de société sont structurées sous forme de *société incorporée*, au lieu de la structure en *fiducie* des fonds traditionnels. Cela procure aux investisseurs divers avantages sur le plan fiscal, y compris la possibilité de rééquilibrer leurs portefeuilles non enregistrés sans entraîner de gains en capital imposables, ce qui favorise une plus forte croissance composée en reportant les impôts.

« Les programmes Optima Stratégie et Portefeuilles de gestion privée se sont toujours différenciés sur le marché par leur processus d'investissement discipliné et par la consolidation des comptes dans l'ensemble des familles, a ajouté M. Canavan. En accroissant leur efficacité fiscale, nous faisons de ces programmes des solutions qui répondent étroitement aux besoins des investisseurs au Canada ».
